**Anaes** Assist.

## Course Information

# Anaesthetic nursing for surgical specialties

### About Our Course:

Our anaesthetic nursing for surgical specialties is provides participants with specific considerations beyond the routine anaesthetic nursing care of patients, broken down by surgical specialty. The workshop contains sessions in caring for patients undergoing ENT surgery, head and neck, general surgery, orthopaedic, ophthalmic, upper GI & colorectal, gynae & urology and endoscopy. Our program is ANZCA PS08 compliant.

### Who is the Program Designed for?:

Our anaesthetic nursing for surgical specialties course is designed with Registered Nurses in mind but is also suitable for enrolled nurses and students who wish to enhance their knowledge in the nursing care of patients for specific surgery and is designed to build upon the knowledge and skills provided in our fundamentals of anaesthetic nursing course
